Message from the President

Welcome to 2015!

The Torrey Pines Gulls are gearing up for another great year of flying, competing, and enjoying some world class flying sites that we as TPG members get to enjoy year around. As I write this, I am relaxing after some of us had the opportunity to kick off the first 2015 winter storm season at the Torrey cliffs on the last days of

December. The lift was epic at the slope, the temperature was relatively mild, and it gave all the slope addicts a chance to dust off their ballast and heavy planes for some high performance flying at the Torrey Bluff. A reminder that our club namesake is a world class site! New Years is a time for resolutions. For 2015, I urge club members to reflect on each of our roles as ambassadors to this great hobby and to the world class flying sites that we enjoy. Though answering questions, running through a preflight with the new guy, or helping someone launch their latest prized glider may seem mundane, that little extra effort could inspire a new RC pilot to learn to fly, a hesitant beginner to compete in the next TD contest, or inspire someone to scratch build their first glider. You could be that mentor, helper, or friend that helps someone enjoy this great hobby of ours for the rest of their life! We are a unique bunch of folks, and only a small percentage of people have the ability and/or opportunity to pilot remote control aircraft, and even fewer master unpowered flight. Our club has about 100 such glider pilots and many of those compete at the national level and have fun doing so!

To that end, the TPG board is working hard behind the scenes to add membership value, and to generate opportunities for TPG members to participate and share information about flying, building, and competing in the various disciplines in which TPG participates. In 2015 TPG will continue to host monthly contests, fun fly events, and onsite clinics. General meetings will coincide with non-competitive events throughout the year.

Message from the President (continued)

This month check out the AMA Convention up the road in Ontario from 9th to the 11th, and the monthly TD contest on Sunday the 11th. Be sure to monitor the TPG website for upcoming events! Till next month, remember to fly more, share when you have the opportunity, and have FUN!

Join the Yahoo Forum! (reprinted as a reminder to club members)

By Lenny Brzezinski -TPG Moderator

The Yahoo forum was formed Oct. 18th, 1999. There are over 200 members in the Yahoo Group. This group has many things to offer for the club. It is a way of communicating with each other. If you have any concerns you can post them here. Other questions about almost anything having to do with flying, building, finding another person, and so on.

If you are new to the club, the website will give you a lot of information about the club. On the website there is a link that you can use to join the group. This group is moderated. Please use this group for flying related items. You can post on the Yahoo group files, photos, polls, members, and calendar. All of these sections are available to any member. I hope that your experience with this group will be great. Click the link below for more information: <http://www.torreypinesgulls.org/forum.htm>

Check out the TPG Facebook page, too.

Newsletter Update - Dale Gottdank

Like Dan said, we're looking forward to a great 2015 for TPG, and remember, to make this newsletter even better:

Please send some articles! They don't have to be a "novel," just a paragraph or two about something that interests you related in some way to RC soaring...even something interesting you happened upon on the internet –I'd like to have the newsletter published by the first week of every month. If there's a roject you're working on, don't just post it on RCGroups...share it with your club! To make the timely issue possible, I need the club members' support and help in providing me with **recent** pictures, articles and any upcoming events. If there are too many, we'll save some for the next issue.

Please send in your articles or photos (dgottdank@gmail.com) by the 25th of each month so they can be included in the monthly newsletter. The newsletter can be found on the Torrey Pines Gulls web site at <http://www.torreypinesgulls.org>

Club Meetings and Activities

As Dan mentioned above, TPG will continue to host monthly contests, fun fly events, and onsite clinics. General meetings will coincide with non-competitive events throughout the year. Be on the lookout for upcoming details and scheduling for all TPG and related events on the Torrey Pines Gulls web site at:

<http://www.torreypinesgulls.org> and

DLG – C'mon out to Poway

Get your DLG's ready and don't miss another opportunity to hone your DLG skills as the DLG Clinic/Contest Series resurrected by Tim Traver, John McNeil and Gary Fogel continues this year with Tim Traver serving as DLG Coordinator. **Congratulations to Tim for being named TPG 2014 Modeler of the Year.**

A Note from the Slope – Ray Pili

Happy New Slope Year All

I trust everyone had a wonderful relaxing holiday with family and friends. For you good boys and girls, Santa may have left you a shiny Ducati Red Sloper under the tree. And if he didn't, maybe your name was on Santa's "other" list.

If you're asking yourself, who is this new guy with grey hair; Well I'm Ray Pili and I'll be the slope coordinator for 2015. Please feel free to contact me for any slope related comments, suggestions, issues or questions. My goal is to ensure safe, fun and memorable slope sessions at the Torrey Pines Gliderport. We are very lucky to have such a beautiful flying site right in our backyard.

Speaking of memories, please remember to send Dale or myself, a few photos and comments of your visits to the Gliderport this year. Tell us of your gliders first flight, (or its last flight), an epic clearing winds slope session, your "sneak out of work for a long lunch attitude adjustment" flight, or a photo of the green flash at sunset. We all enjoy these stories.

The club's first scheduled event at the Gliderport will be the Annual Pilots Rating/Fun Fly tentatively scheduled for Saturday February 22 2015. This would be a very good time to fill out the liability waiver. Details will be forthcoming and posted on yahoo groups and the club website calendar as well as on RCGroups. As a reminder, the requirements to fly at the Gliderport can be found on the club website (<http://www.torreypinesgulls.org/flyingtorrey.htm>). Note the daily use fee is \$10; the yearly pass is now available for \$200. Our heaven-sent December rains have greened up the slope nicely and we now have a soft LZ for your new Christmas sailplanes. The photos below were taken December 17th 2014.

Bill Eckles

Membership – Bill Eckles

It's time to renew your memberships in the Torrey Pines Gulls for an exciting new year, filled with fun flies, work parties, contest opportunities and just plain lounging and recreational flying. Our three key flying spots are currently in good shape and as the new year progresses, so will our fields with green grass and blue skies and balmy Southern California breezes. Of course, there will also be on-shore winds in the 20's at the Gliderport and infrequent showers at the thermal fields to add spice and comfort.

The new board is not much different than the old one as the industrious workers tend to rise to the top, but lots of thought is going into the plans for the year and a great year is in their sights. Reminders have been sent to members from last year and so far the response is good. We're over 40 strong and we expect an increased response during the month of January. Please return your reminders or, if you didn't get one, go to the website and join us. The more members we have, the more we can help each other and the better the club functions. We'll get your membership cards and keys out as quickly as we can and you can comfortably enjoy the imminent seasonal up-tick in flying fun.

See you at the flying fields and club meetings.

Quote of the Month:

But whether [the source of lift] be a rising current or something else, it is as well able to support a flying machine as a bird, if man once learns the art of utilizing it.

— Wilbur Wright, 18 September 1901
