Message from the President Marty Dine

Hello Gulls, and welcome to 2013! The club had a great year in 2012, from the slopes to the flatlands; Gulls members were everywhere doing our club proud. What with the hotly contested yearlong TD championships (congratulations to Dan Fitzgerald and Mark Canfield) and the always spectacular IHLGF contest bringing contestants from around the world. Speaking of competing internationally, several of our own have competed on the world stage this year and done very well in their own right.

Now, lest you think that our club is built solely around the competitive side of the hobby, you should know that we also had a very active year at Torrey Pines, where we hosted several fun fly and fly-in events throughout the year. The atmosphere at the glider port has never been better, and it is truly a magical place to fly. Heck, even if you're not flying it's just a great place to hang out! So, if you notice the breeze blowing from the West, come over to Torrey and check out what us slope trash-types are up to at the bluff. I'm betting we'll have you converted in no time!

I also wanted to take a moment and thank Mark Canfield for a job well done as Club President over the last 3 years. Mark's reasonable and steady hand has guided our club into a very healthy state. Along with guiding our club and board of directors, Mark has been steadily moving up the ranks of contest pilots into the elite class for F3F, TD and F3K. In other words, he's been a busy guy, and we owe him a hale and hearty thanks for all of his efforts on the club's behalf. Thanks Mark, we appreciate it!

This being a new year, look for a few changes--

First, you may have noticed a new format for this newsletter. Thanks to Cliff Hunter for taking on the newsletter production--a challenging task, indeed. Look for upcoming photo contests along with other neat tid-bits for your reading pleasure. Get your best photo submissions ready! Further, we're always looking for content. If you have an interesting story you would like to share, please submit it to Cliff at cfhunter@att.net

Next General Meeting

Tuesday, Jan. 8, 2013

**San Diego Auto Museum
Balboa Park, San Diego**

Message from the President Marty Dine continued from page 1 ...

Over the past few months, our webmaster Steve Hurd has been making a few changes to the website. We want to continue that project, and make our website a fresh and entertaining place to go to learn about the Club's membership, activities, and general modeling information.

In an effort to get more of our members involved (or at least exposed to) in more areas of the hobby, we are also developing a series of fun-fly/clinic events to be held at our thermal soaring fields. These events will be a great chance to get the members together and familiarize them with flying models off-the-winch, and to get hints and tips from some of our world-class pilots. So, along with our usual fly-in/clinic events at Torrey, members will have ample opportunities to take advantage of our trio of excellent flying sites. Be on the lookout for upcoming details and scheduling.

Additionally, the board is considering changing the schedule for general membership meetings from monthly to quarterly (or thereabouts) in an effort to get more attendance, and make the meetings a bit more... special... Well, that about does it for now. Hope the holidays were happy for you and yours, and I'll look forward to seeing and meeting you either at the slope or on the flatlands.

All the best,
Marty

Club Meetings and Activities

The next TPG general club meeting is Tuesday, January 8, 2013, 7:00 pm at the San Diego Auto Museum, Balboa Park, San Diego.

Remember the Academy of Model Aeronautics – AMA EXPO 2013

Ontario Convention Center – Ontario, California

Friday, January 11, 2013 Noon – 6pm

Saturday, January 12, 2013 10am – 6pm

Sunday, January 13, 2013 10am – 4pm

Ontario Convention and Visitors Bureau, Ontario Convention Center

2000 E. Convention Center Way (800) 455-5755
Ontario, California 91764 Toll-free:

What is the Yahoo Forum?

By Lenny Brzezinski -TPG Moderator

The Yahoo forum was formed Oct. 18th, 1999. There are 252 members in the Yahoo Group. This group has many things to offer for the club. It is a way of communicating with each other. If you have any concerns you can post them here. Other questions about almost anything having to do with flying, building, finding another person, and so on.

If you are new to the club the website will give you a lot of information about the club. On the website there is a link that you can use to join the group. This group is moderated. Please use this group for flying related items. You can post on the Yahoo group files, photos, polls, members, and calendar. All of these sections are available to any member. I hope that your experience with this group will be great. Click the link below for more information: <http://www.torreypinesgulls.org/forum.htm>

Cliff Hunter (R)

Newsletter -Update Cliff Hunter

Happy New Year!

I am the newsletter editor for 2013 I hope to have the newsletter published by the **first of every month**. To make this happen I need the club member's support and help in providing me with pictures, articles and any upcoming events. **Please send in your articles by the 20th of each month so they can be included in the monthly newsletter.** The newsletter can be found on the Torrey Pines Gulls Web site at <http://www.torreypinesgulls.org>

Keith Finkenbiner &
Peter Leduc (back)
2011 at Encinitas
Field

Thermal Contest – Keith Finkenbiner -CD

January 13, 2013 - TPG Thermal Contest, Encinitas Field, Pilots meeting at 8:45 am first round 9:00 am

TASKS: Non AMA Contest

1 st Round	3Min Precision Duration
2 nd Round	7 Min Precision Duration
3 rd Round	9 Min Precision Duration
4 th Round	11 Min Precision Duration

Landings will be 100 Points with 25 foot tape.

This will be the last contest with the old keys so get your new membership and key this month. Remember the keys open the gates to Encinitas and Poway field.

Contact Keith at 760-216-6349 with any Questions

TPG QUOTE OF THE MONTH:

ABILITY MAY GET YOU TO THE TOP, BUT IT TAKES CHARACTER TO KEEP THERE.

From the Slope !

Jim Scott - Slope
Coordinator

Hello fellow slopers! I'm Jim Scott (AKA "Pismo" on RC Groups where I'm sure a few of you know me from). I'm looking forward to serving the membership in any way I can as the new slope coordinator and will try to fill the shoes of my very capable predecessors. Here are some upcoming events you may want to check out:

* January 12, 13, and 14 - AMA Expo 2013. Be sure to stop by the indoor flight venue and say hi to fellow TPGers Mark Wood, Greg Houck, and me! We'll be the ones that try to look like we're in charge of something ?

* February 16th TP Glider Port Ratings/Fun Fly day. We'll be having a get together like last year and it's a great opportunity to take care of the paperwork, get a pilot rating, and get in some fun flying. Probably even enjoy some great food. We'll have more details coming so stay tuned by coming to the January TPG meeting or check out one of these sites: <http://groups.yahoo.com/group/TPGulls/> or <http://www.rcgroups.com/torrey-pines-gulls-672/>

Torrey Pines
San Diego, CA

Also, checkout last years

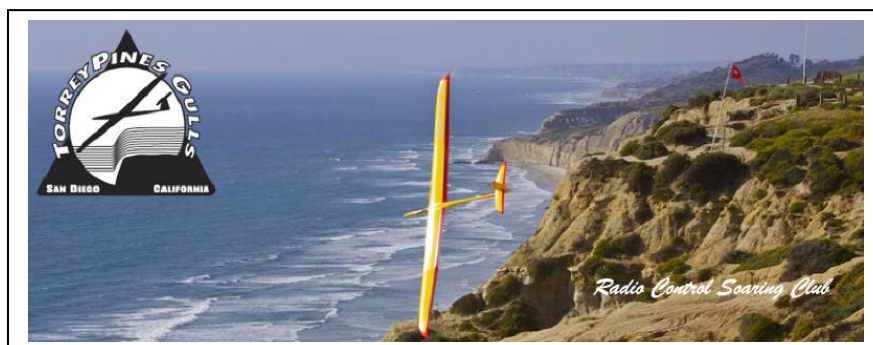

Flyer: <http://www.torreypinesgulls.org/TorreyFunFlyBBQ%20Report2012.pdf>

* Coming in 2013 - More Fun Fly's, BBQ's, great flying and hanging with people that enjoy their hobby in one of the world's most beautiful sites. Suggestions for event are always welcome.

For those of you that are new to the Torrey Pines Glider Port or would like to know what's necessary to fly your Radio Controlled Glider at this world class site, here is a link with all of the information:

<http://www.torreypinesgulls.org/flyingtorrey.htm>

Hope to see you at the slope,
Jim "Pismo" Scott

Articles of Interest

Quest for Flight, by Gary Fogel, December 1, 2012

Gary Fogel

Most glider fans in San Diego have heard stories of an early glider pioneer named John Montgomery, who lived and flew gliders in San Diego at the turn of the last century. Many know that Montgomery Field was named in his honor, or that there is a Montgomery Memorial near Chula Vista dedicated to his early flights, but surprisingly even most local aviation fans do not know his true history. This has led to an aura of mystery about his accomplishments - or what he did or did not accomplish - as an early glider pioneer. But even the National Air and Space Museum of the Smithsonian recognizes him as the first American to fly in controlled flight. Why is he not better understood by the community?

As part of my effort to research the history of gliding at Torrey Pines for the various historic designations my father and I were able to achieve in the 1990s I came to the realization that there were two "camps" associated with Montgomery's history - those that believed he flew and those that did not believe. My book *Wind and Wings* presented both sides of this argument because frankly at the time I did not have enough information to determine which side I felt more strongly in favor of and furthermore, my focus was on preservation of the Gliderport.

With that background in mind I was fortunate in about 2003 to meet Craig Harwood, the great grandnephew of Montgomery, who also had a desire to learn more about Montgomery's early gliding. Together we decided it was time someone wrote a comprehensive biography on this early glider pioneer. Roughly 10 years of research later we have realized our book "Quest for Flight: John J. Montgomery and the Dawn of Aviation in the West" (University of Oklahoma Press, Oct 2012). The book not only tells the story of Montgomery but what it was like to even consider dabbling in "flying machines" in the 1880s, and attempts by others in both lighter-than-air and heavier-than-air designs through the early 1900s. It's a story of California's rather independent entry into aviation, and through our research we have learned that Montgomery was a focal point in much of that activity.

The TPG has its own wonderful history of model aviation dating back to 1969/1970. Imagine my surprise when I learned that Montgomery was making free flight glider models near Chula Vista in the 1880s! He was not only the first to make a controlled flight in the US; he was the region's first modeler! Had radio control been invented back then, perhaps he would have enjoyed soaring models at Torrey Pines.

Any of you interested in local aviation history, especially glider history, will enjoy this book. It is currently available via Amazon or Barnes and Noble as either a hardcover or e-book.

<http://www.amazon.com/Quest-Flight-John-Montgomery-Aviation/dp/0806142642>

Also please have a look at my author Facebook page, which has not only information about the Montgomery book but videos and information on other glider history articles I have written in the past.

<https://www.facebook.com/GaryBFogel>

If you were unable to make it to the November TPG meeting, I will be providing a similar lecture on Montgomery's history at the AMA Expo in Ontario, CA on January 11 and 12. I hope to see you there!

Mike Smith – F3K Hand Launch Gliders – World Champion Contest

**FAI Sporting Code – Section 4 – Aeromodelling – Volume F3
Radio Control Soaring Model Aircraft 2012 Edition
Effective 1st January 2012 Class F3K Hand Launch Gliders**

5.7. CLASS F3K – HAND LAUNCH GLIDERS

No, it's ok keep reading. I am not going to regurgitate the rules for F3K in this article. It is interesting though to see the headline title of the rule and know that the hobby of building and flying hand launch RC gliders has risen to this stature.

F3K is simply the FAI rules classification for competition with hand launch or discus launch (DL) gliders (G). This classification is one that the world accepts as the rules by which a contest can be held to determine a World Champion. The gliders are super high tech composite wonders that are produced by some seriously talented craftsmen devoted to producing a glider that meets their specific performance targets. The game is such that nearly anyone can play and be competitive, since the launch technique allows for greater start altitude with less athletic talent and effort. A little athleticism doesn't hurt though. Here is a quick list of the ten tasks defined in the current rules:

- Task A (Last flight)-only the last flight counts, 5 minutes max., 7 minute working time. (WT)
- Task B (Next to last and last flight)-only the last 2 flights count, 4 minutes max, 10 min. (WT)
- Task C (All up, last down)-simultaneous launch longest flight wins, 3 min max. up to 5 flights
- Task D (Increasing time by 15 seconds)-the ladder, 30, 45, 60, 75, 90, 105, 120 sec. 10 min. (WT)
- Task E (Poker – variable target time)-pilot designated target times, 5 flights max, 10 min. (WT)
- Task F (3 out of 6)-best 3 flights out of a maximum of 6 throws, 3 min. max, 10 min. (WT)
- Task G (Five longest flights)-2 min. max, 10 min. (WT), requires quick land/launch turnarounds.
- Task H (One, two, three and four minute flights, any order)-quick turnarounds, 10 min. (WT)
- Task I (Three longest flights)-3:20 max (200sec)-quick turnarounds, 10 min. (WT)
- Task J (Three last flights)-3 min. max, but only the last 3 flights count, 10 min. (WT)

Your 2013 US team was selected at the team selection contest hosted by the Rocky Mountain Soaring Association (RMSA) in Denver, Colorado over the long weekend of September 1st through labor day September 3rd, 2012. It was a hard fought battle and Jun Catacutan showed everyone just how solid his skills are with the trying conditions in Denver. His worst round was the first one, and after that, he positioned himself on top of the list and posted scores that left very little room for anyone to gain on him. George Morris, a long time avid modeler from Arizona, and a top tier DLG flyer also flew strong and was very hard to gain ground on. Yours truly was battling to maintain a top 3 position the entire contest. There were a few times when I truly thought that I had just lost a team spot. In the end, George faltered a little bit, Mike Seid, (TPG member, top DLG pilot) who I was swapping 3rd and 4th places with for more than a couple rounds, had an unfortunate radio type failure and allowing me to fend him off and end up with a 2nd place finish.

Mike Smith – F3K Hand Launch Gliders – World Champion Contest continued from page 4.

When the dust settled the top 3 were Jun, me and George. Mike Seid ended up sitting in a strong 4th, and is the team alternate pilot should one of us become unable to attend. There were 3 junior pilots competing the Team Selection contest. Alex Parkyn, Alex Trussell and Jason Friedman all flew very well and earned positions on the US Junior team.

The second ever F3K World Championships will be held in Herning, Denmark from July 19th to the 28th, 2013. Joe Wurts (remembers that guy?) is the returning world champion. USA's own George Morris finished in 2nd place in Sweden, and has some plans for redemption I suspect. The team manager for this year's team is George's brother Charlie. A very competitive F3K pilot himself, Charlie has a solid head for soaring, and especially DLG's. Having him on the field with us will be invaluable. We are looking forward to a very high level, dramatic, fun contest in Denmark. Please follow us on Facebook "Team USA F3K", and visit our website www.teamusaf3k.com. We have a stellar raffle shaping up with 4 world champs DLG's donated by each of the senior pilots, and the TM. 3 Concepts and a Stobel make up the 4 DLG raffle prizes, and there are a lot of other goodies up with more coming. Apparel will be available after the New Year, so treat yourself, and help us get to Denmark at the same time.

The Torrey Pines Gulls is an RC Soaring organization that has been instrumental in the development of hand launch glider competition, and competitors. I can point directly to our own International Hand Launch Glider Festival (IHLGF) as the inspiration for my involvement, no, addiction to F3K. The IHLGF is coming up on its 20th birthday in April, and it is shaping up to be a splendid event. It will be a 3 day contest with catered dinners at the field both Friday and Saturday. We expect to attract 50 or more of the best DLG pilots around, so be sure to stay tuned for news as it develops over the next couple of months. Dave Klein, and myself are doing the organizing, and we are interested in hearing from anyone and everyone that might be interested in helping out.

Contest Results December 2012

Contest Director - Mike Smith

December 9, 2012 Encinitas Field - 0800 to 1200 TPG Contest Tasks

Final Contest of 2012

4 rounds of Thermal Duration madness. The tasks are 3, 9, 11, and 13 minute. All constants scores will be posted on the Web Site www.torreypinesgulls.gov

The weather was foggy in the morning and warm and clear at times with good lift. There were 10 master flyers, 8 expert flyers, and 1 sportsman and 1 novice.

Remember it is time to renew your 2013 Memberhip

Memberships - By Bill Eckles January 2013

It is time to get serious about new memberships for the 2013 flying year that starts in January! Not only will the thermals be popping for you Sunday competitors, but we'll soon be getting into those strong on-shore winds that make sloping at the Gliderport so thrilling. Every year we need a good strong membership to continue to provide the services we offer:

- ✓ Access to three Flying Fields in La Jolla, Encinitas and Poway.
- ✓ Frequent meetings at Balboa Park to schmooze with each other and promote good friendships. Great speakers at club meetings, on all subjects
- ✓ A group of guys who can answer just about any question you might ask, and do it with a smile.
- ✓ Contests that bring out world class competitors from around the globe.
- ✓ Competition and help for you, regardless of your skill level.
- ✓ A holiday party that's the envy of most gourmands in Southern California.
- ✓ A web site for current and past information www.torreypinesgulls.org
- ✓ An interesting monthly newsletter with current information to help keep members informed
- ✓ We are an AMA Chartered Club #129, with benefits - field Insurance etc.

The dues remain at \$60 for the year and you can even get credit as much as \$20 for two half day work sessions if you want to help at club events or field maintenance.

Dues are as follows:

- ✓ Dues for the membership (calendar) year are as follows for submissions during.
- ✓ January through June are \$60
- ✓ July through September are \$30
- ✓ October through December are \$60 (gives you a jump on next year)
- ✓ Juniors age 15 and under \$5
- ✓ Receive a *credit* of up to \$20, ten for each of up to two half-day work sessions helping the club.

We will send out renewal letters, consider them invoices, in the next weeks with all you need to know and even postage paid envelopes to send your information in with.

Also, if don't want to do paper you can use  to speed your membership along. Go to www.torreypinesgulls.org and click on the tab "Membership". We'll make it as simple as possible to continue your membership.

A new slate of directors is eager to have you join us, so send back the membership information as soon as you can. New ID cards and keys will be sent for the new locks at Poway field & Encinitas field no later than February 1. Don't miss a thermal!

Encinitas field

What's new in Soaring Equipment etc.?

Wench Batteries comments from David Klein

Gentleman,

As you know, F3B competition can lead to an over the top obsession with equipment, preparation, technique..... Thus I need new batteries for the team selection. We did all of our homework and found the best possible batteries for F3B. Then we found the best source.

This lead us to Broding's battery Warehouse in La Mesa. We were looking for very specific batteries from Deka. They carried them for a few dollars less than other sources. Even better, when I was asked why I was buying 6 very specific batteries, and replied toy sailplanes, the guy's eyes lit up and he gave me an even bigger discount.

So if you need new batteries for anything, do yourself a favor and get real top of the line cells for Costco prices from Broding's Battery Warehouse

8188 Commercial Street
La Mesa CA 91942
619-463-9812

Gary Mac Isaac helped me..

I don't do many shout an out, this one is worth it.

Thanks,
David

Visalia 2012- 2 day contest

Club Sponsors

The Torrey Pines Gulls members would like to thank all the sponsors for their donations and supporting Torrey Pines Gulls Soaring Society. Without the support of these fine companies, the success of the events would not have been possible for the year of 2012.

To our members, when you are thinking of buying a hobby-related item, please consider these outstanding companies first. Please click on vendor's logo to go to their web site for more information.

Photo of the Month Contest

Each month club members (if they want to) can submit photos of an activity related to soaring and the newsletter editor will post a winner. (The winners will receive a prize yet to be determined) email your photos (.JPG format preferred) to Cliff Hunter at cfhunter@att.net . Please provide your name, location of photo and what we are looking at.
